The **Wieland Online Notification** is designed for **registered forwarders and customers / suppliers** delivering new or scrap metal to our factory in Vöhringen. In the application you can book fixed time frames for the delivery.

Unloading of metal on our premises in Vöhringen is possible only after prior notification.

With the online notification you also have the possibility to book yourself, on the same day, still unreserved unloading times in a fixed time frame.

*-Mandatory fields

Registration for online notification

Help:

Please fill in the form and then press the "submit" button .

your Online Notification Team

Just one registration per company please!

You have to get registered first in order to be able to carry out online metal deliveries.

- Via the buttons
 - Services
 - Online notification
 - Registration
- Go to „**Apply for registration**“ form.
- Fill out the form and confirm via „**Submit**“ button

Within one working day you will receive by e-mail your authorisation with name and password to „Log on to online notification“.

Modification of registration data

Via the menu item „Own data“ and the button „Address data“ you have the possibility to update your registration data in the below attached mask.

Furthermore it is **important** that you apply for only ONE REGISTRATION PER SUPPLIER AND CUSTOMER. With this authorisation **every employee** in your company can make his notification. On the basis of the available address data Wieland-Werke AG would like to send information about their operations via e-mail or fax.

Therefore, the administration of your data should be given top priority.

The screenshot displays the 'Wieland' online notification interface. On the left, a navigation menu includes 'Own Data', 'Book notification', 'Current blocking', and 'Logout'. The main content area is titled 'Online Notification' and features a 'Welcome:' message. Below this, the 'Own Data' section is active, showing a 'REQUEST REGISTRATION' form. The form includes a 'Refresh' button and a 'Save' button. The registration data is as follows:

| Field | Value |
|------------------------|-----------|
| Company/supplier* | testfirma |
| Industry* | Spedition |
| Person in Charge/name* | asas |
| E-mail* | asa |
| Street + House No.* | saa |
| Country* | Italien |
| Postal code, City* | 333 33 |
| Phone* | 322 |
| Phone extension* | ww32 |
| Facsimile* | 222 |
| Language | Englisch |

Below the form, there are date filters for '30.08.2007' and '28.08.2007', and a table of data with columns for quantity, status, material group, and supplier.

| ▼19.08.2009 | | | | | | |
| 2 |  Stückgut | 110889 | HHHH4 | GBH | AB | Cu-Granulat |

Example of list

Green dot = lorry is in the factory

Red dot = lorry has left the factory (detailed description see page 12)

Now you get the notification list with all notifications you have created to date. Here you can follow up and check if the lorry, forwarder or subcontractor arrives at Wieland-Werke AG in time.

You have the possibility to open the respective notification number via the **unloading point** in order to view details of the notification.

Always click on the „**Update**“ button first before you view the entered notifications in order to get further details of a notification number.

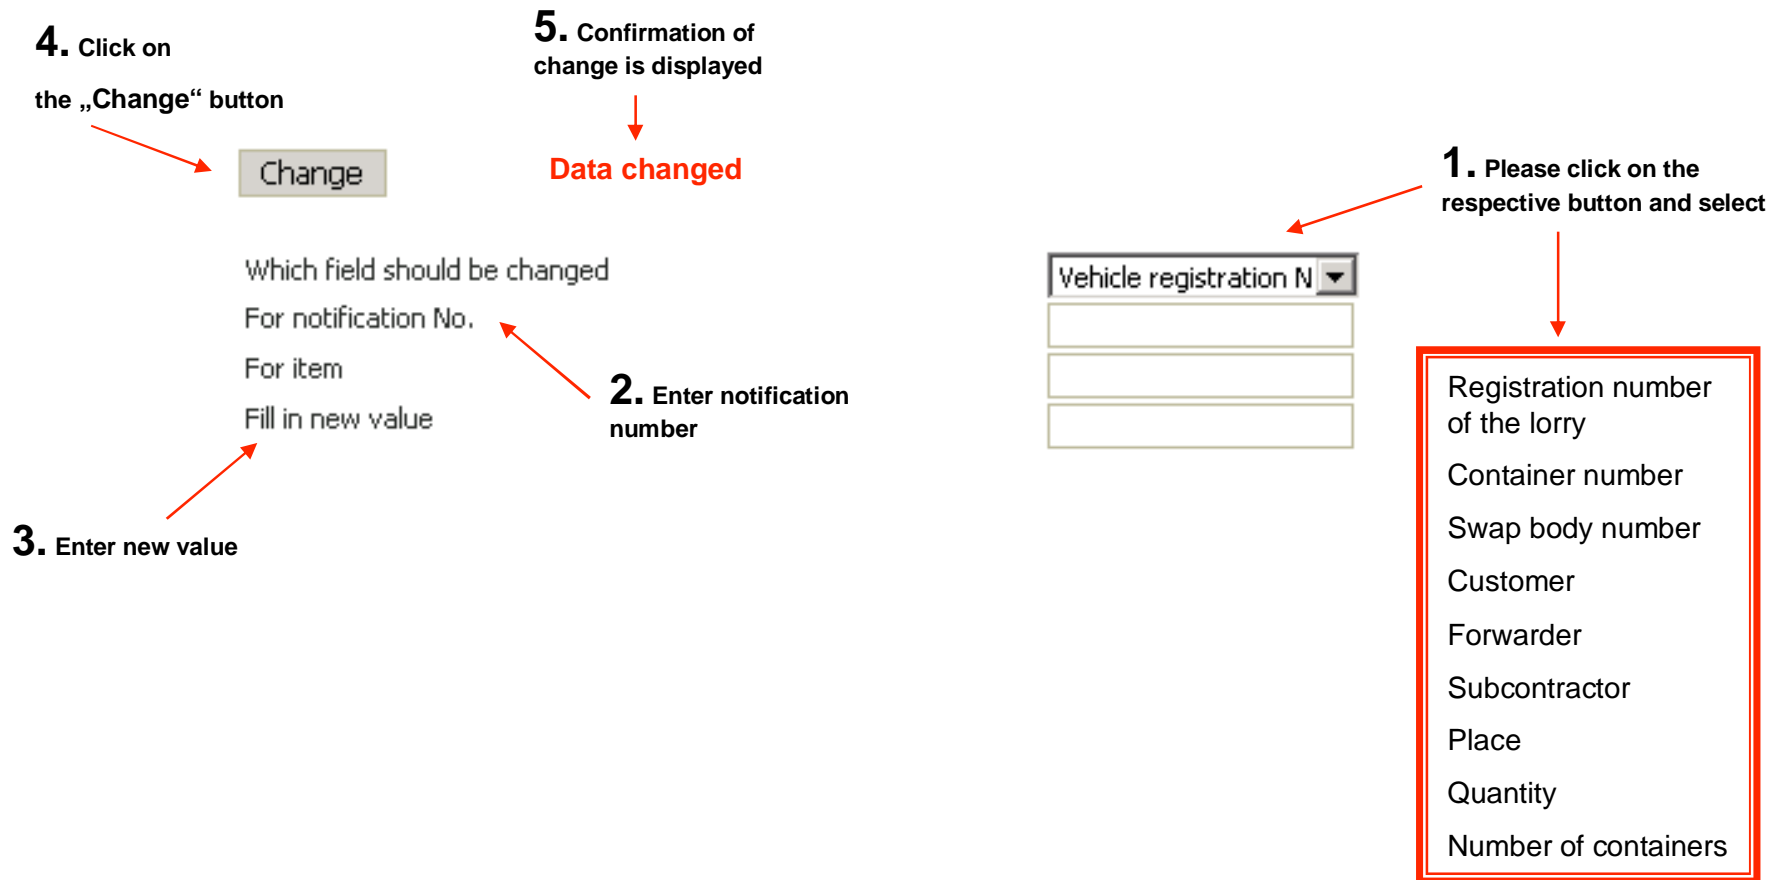

Click on the „**Collapse**“ button if you want to list all notifications by date only.

The „**Expand**“ button opens the created list „**Own Data**“ (see above)

To change the notification click on the „**Change data**“ button. The next image explains how to change the data.

General information regarding online notification at Wieland-Werke AG.

- Please observe the times specified by Wieland-Werke AG for unloading.
(see also under online notification; unloading times or attached pdf-file on page 1).
- If your lorry does not arrive at the notified date, please do not forget to delete your notification and to make a new one.
Otherwise you will occupy a free place that could be booked by someone else.
- If you have questions regarding unloading times and time blocks which are no longer available or regarding the general handling, your contact partners

Mr. Thomas Weis, telephone +49(0)731 944-31 58

Ms. Kerstin Schuler, telephone +49(0)731 944-33 06

Ms. Stephanie Thurnhofer, telephone +49(0)731 944-30 92

will be glad to assist you.

We wish you every success with the online notification of metal-scrap deliveries to Wieland-Werke AG.
